...

8. Any items requested by the visiting public

Bob Stagers with the Emigration Oaks Homeowners Association stated that an issue that came up in one of their meetings was that someone had an issue with high water use and found out their PRV was gone. They cut their water use down to 20% of what it was by replacing the PRV. He suggested that the District get a notice to people, because they are reaching a point where many PRVs are failing, and people do not know it. Board Member Stevens requested that Mr. Stagers write up some information to send out with the next billings. Mr. Stagers commented that he has water filters in his home, and they are caking with red material and do not last as long as they should. The Board Members confirmed it is iron in the water.
