The answer is No. To be absolutely clear, despite your complete lack of respect and professionalism I have tried to provide you information, but your requests, accusations and threats are asinine, and I am not going to validate them with a response. If you need assistance with the recording, or if you have any other issues with District, please contact Eric. I will not read or respond to any more of your emails.

Thanks,
Jeremy

Subject: Regarding "Open Meeting" Recording

Mr. Cook,

This is not a legal matter which EID Management must approve or even pay for but rather a question of your compliance (as well as that of PKH) with professional and ethical responsibilities. I made every effort to notify you about the improper nature of the referenced meeting, prior to when it was held. It has been nearly a month since the meeting occurred, without any provision of an accessible recording of the meeting itself. A further refusal to schedule a telephone conference with the managing partner will result in an additional complaint to the Utah Bar Association. I expect the arrangement of such a conference within the next seven days.
