RE: Protest of Change Application a44045 (57-7796)

A hearing is requested.

I protest these 5 additional wells by EID. Since EID has been pumping water over 60+ private wells have dried up along the main canyon road. We should not be losing our water so that larger houses and bigger developments can be implemented. The recent Salt Lake Tribune article highlights this and the problems the canyon has faced. I am worried about our well and we had hoped to have water throughout our life at our house but it doesn't look like that will be the case if EID continues to take water and charge \$10,000+ to connect to their water system. <https://www.sltrib.com/news/environment/2018/09/08/why-is-emigration-creek/>
