RE: CHANGE Application: ~~a44046~~ and a44045 *Protest*

October 15, 2018

Dear Sirs:

We have lived in the Pinecrest area of Emigration Canyon for 37 years. I would like to **state my opposition** to the proposed 5 wells that the EID has suggested drilling.

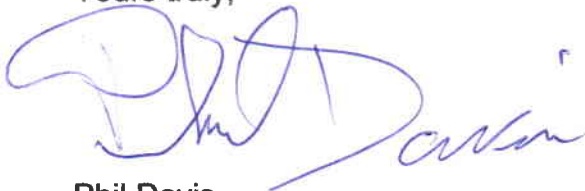

Our water right (57-3276) is for an unnamed spring which provides our domestic water. Our concern is that the proposed deep water wells would draw water from the aquifer and drastically affect our water flow. In our location, we have no other source for domestic water.

When the EID first installed their two present wells and water tanks, we noticed that our spring had slowed that year. This proposal places wells in very close proximity to our spring. It also appears that one of the well sights may actually on our property.

I would like to add that we have been paying our share to the EID through property taxes for a lot of years and receive NO BENEFIT – the pipeline does not come this far up.

An issue of this magnitude deserves careful consideration and certainly community input.

Yours truly,

Phil Davis
